

A 5x10 grid of colored squares representing a 2D spatial distribution. The colors range from dark red (top-left) to light yellow (bottom-right), indicating a gradient. The grid is divided into 5 rows and 10 columns. The bottom row is labeled with values 1, 11, 31, 51, 71, and 91.

A heatmap visualization showing the importance of 1000 words across 1000 sentences. The x-axis represents words, with labels at 1, 11, 31, 51, 71, and 91. The y-axis represents sentences, with labels at 1, 11, 31, 51, 71, and 91. The color scale ranges from red (high importance) to yellow (low importance). The top row (sentence 1) shows high importance for words 1, 11, 31, 51, and 71. The bottom row (sentence 1000) shows low importance for most words, with a slight increase for words 1, 11, 31, 51, and 71.
